**FOR IMMEDIATE RELEASE**

**HEALING DRUMMER CREATES NEW FORM OF THERAPY**

**Well-Known Drummer, Toby Christensen, Invents “Crystal Healing Bed”**

Toby Christensen announced the creation of a new form of healing musical therapy today. Christensen, known as the Healing Drummer, is a nationally known drummer who uses ancient drumming techniques to provide alternative healing. His invention, The Crystal Healing Bed, combines copper, crystals, silica and sacred geometry to create a platform that amplifies and enhances the healing sound energy created by his native drumming.

“Recent studies suggest that therapeutic drumming is effective in dealing with a wide range of mental, physical and emotional issues,” said Christensen. “The Healing Bed provides a great focus for the healing vibrational energy that helps to reconfigure your bioenergetic structure.”

Christensen resides in Portland Oregon, but his practice takes him throughout the country. He points out that using drumming and ritual for healing is one of man’s most ancient practices. He’s studied under native healers in the United States and Africa for many years. “This new form of drumming therapy is turning out to have a great effect on my clients, they love it.” [NOTE: It would be great to get an outside “expert” quote or testimonial to insert here.]
